Contains 10 Turmeric:
The key compound in turmeric is called curcumin. It is a polyphenol that is highly antioxidant and appears to be the most important. It has anti-inflammatory, anticancer, and anti-aging properties. Curcumin is also a powerful antioxidant and has been shown to help reduce cancer, heart disease, and other chronic diseases. It is not well absorbed in the body (10-15% bioavailability).
Recipe to Black Pepper: Black pepper contains the active compound piperine, which is an alkaloid in the pepper, the active ingredient in cayenne, and the active ingredient in ginger. It has been shown to help reduce cancer, heart disease, and other chronic diseases. It is not well absorbed in the body (10-15% bioavailability).
The 10% Turmeric (10%) you have made is a serving of 100 capsules in a 30-day supply. It is not well absorbed in the body (10-15% bioavailability).

Government Warning: (1) According to the Surgeon General, women should not drink alcoholic beverages during pregnancy because of the risk of birth defects. (2) Consumption of alcoholic beverages may impair your ability to drive a car or operate machinery, and may cause health problems.
